

Leading Economic Development in Northwest Kentucky

15 August 2008

Mr. Earl Powers
Chairman
Powers Energy Two of Kentucky, LLC
1100 Erie Ave, Suite 105
Evansville, IN 47715

Dear Mr. Powers:

As the Judge-Executives of Henderson, McLean, and Webster Counties we want to express our support for your planned cellulosic ethanol facility at 4-Star Industrial Park. This facility is critical to our region's desire to create sources of energy independence.

As Powers Energy Two of Kentucky moves forward and develops a facility that processes municipal and industrial solid waste among other feedstock, we will strongly encourage our franchised haulers to deliver to this site as being in the best interests of the communities and the environment.

We look forward to continuing to partner with Powers Energy Two and seeing this project brought to fruition.

Sincerely,
